Project S.T.A.R.T.

You're not just managing projects — you're protecting your business. Project S.T.A.R.T. ensures you do both.

www.ddcsolutions.co.uk

Who We Are

We are more than just technical consultants — we are strategic partners who safeguard your business by stabilizing your projects from day one.

Rooted in the core philosophy of Digital Business Stability, our mission is simple: every project problem is a business problem first.

We help businesses in the construction and design industry reduce risks, cut costs, and increase profitability by aligning project execution with business priorities.

Our approach moves beyond technology — we focus on structured workflows, effective team collaboration, and proactive risk management. Project S.T.A.R.T. is a direct reflection of this philosophy, providing a solid foundation for seamless project initiation while protecting your cash flow and business objectives.

By partnering with us, you're not just streamlining project processes — you're future-proofing your business.

Industry Contributions And Achievements

30+
YEARS OF EXPERIENCE

We have over 30 year's experience with BIM and data-driven 3D modelling. Project delivery is at the core of our interest and expertise.

TRAINING SESSIONS

We've guest lectured on BIM, to help students gain a better understanding of the new industry standards.

150+
SATISFIED CLIENTS

We have worked with over 150 organisations in the UK and Europe.

PUBLISHED BOOK

We've published a book! Project Workshop: A BIM Project delivered in Revit.

14+
COUNTRIES

We've supported projects in 14 countries.

EXPERT IN EIR STRUCTURE

We're an expert interviewee in the creation of the industry standard Exchange Information Requirements (EIR) Structure.

WINNER

RISING STAR OF THE YEAR AWARD

- *RIBA & Safe Contractor Approved*
- *Featured in Industry Magazines & Government Reports*
- *Over 40+ UK & EU Organizations Supported*

"Recognized for helping over 40+ UK & EU firms optimize workflows, cut costs, and improve project delivery —without the usual technical headaches."

What Our Clients Say

Our Revit implementation and project mobilisation lacked efficiency, causing delays and inconsistencies. So, we approached DDC Solutions. Their expert team streamlined our workflow, provided tailored support, and took on BIM management, allowing us to focus on design. The result—faster project delivery, reduced errors, and a seamless digital process. Highly recommended for any firm looking to optimise Revit workflows.

— Stiff and Trevillion

Coordinating projects across multiple BIM platforms while ensuring smooth mobilisation was a constant challenge. DDC Solutions brought clarity and control, streamlining workflows, optimising modelling, and enhancing collaboration. Their expertise has improved efficiency, reduced errors, and strengthened team coordination—an invaluable partner in digital project delivery. Highly recommended.

— Universal Design Studio

Your Project's Success Starts with Business Stability

Every project is a business decision first. Delays, miscommunication, and rework don't just impact projects **— they threaten cash flow, damage reputations, and create financial risks.**

That's why Project S.T.A.R.T. goes beyond technical project setups. It's a business-first approach to project initiation, ensuring your business and project goals align from day one.

We don't sell BIM or Revit setups — we sell profitable, risk-free project foundations that protect your business.

What is Project S.T.A.R.T.?

Project S.T.A.R.T. is a proactive, risk-managed approach to project initiation, offering a clear, structured plan that aligns technology, teams, and business goals from the very beginning. This service focuses on reducing financial and operational risks, ensuring a seamless and efficient project start while prioritizing your business objectives.

S.T.A.R.T. stands for:

S — Setup & Structure

- **Eliminate Misalignment:** Kick-off meeting ensures the project team and resources are aligned from day one to reduce time.
- **Define Roles & Responsibilities:** Clear definitions of roles and project stages prevent overlap and wasted effort, ensuring smooth collaboration.
- **Establish Communication Protocols:** We set structured communication workflows, reducing inefficiencies and fostering proactive problem-solving.

T — Technology Integration

- **Prevent Costly Errors:** By configuring standards and technology at the start, we eliminate errors that stem from poor setup.
- **Break Down Data Silos:** Our process removes manual redundancies and integrates digital workflows, cutting duplication and rework.
- **Accelerate Project Delivery:** Standardized digital processes enable fast, accurate project management and documentation.

A — Alignment & Model Coordination

- **Geospatial Precision:** Accurate model coordination reduces costly mistakes related to misaligned data.
- **Reduce Project Delays:** Early-stage coordination identifies and resolves conflicts before they escalate.
- **Unified Stakeholder Approach:** Clear sign-off procedures keep all parties informed and aligned.

R — Risk Management & Compliance

- **Proactive Risk Mitigation:** We identify potential risks and address them before they impact timelines or budgets.
- **Cost Management:** Efficient processes reduce waste, minimizing unforeseen expenses.
- **Ensure Compliance:** Our approach guarantees your project meets industry standards and contractual obligations.

T — Training & Team Enablement

- **Tailored Training Programs:** We design bespoke training sessions, equipping teams with essential workflows and best practices.
- **Knowledge Transfer:** Teams gain the skills needed to avoid costly mistakes and operate efficiently.
- **Ongoing Support:** Access to technical assistance five days a week for uninterrupted progress.

Why Choose Project S.T.A.R.T.?

We created Project S.T.A.R.T. as a solution to bridge the gap between short-term project needs and long-term business goals. With growing financial uncertainties, committing to long contracts feels risky. That's why this service is:

- **Short-Term but Impactful:** A focused three-month plan that mobilizes projects quickly without long-term commitments.
- **Business-Centric:** Prioritizes your business goals, ensuring projects serve profitability and growth.
- **Risk-Managed:** Proactively identifies and mitigates risks from day one, protecting cash flow and resources.

Key Benefits

Immediate Results: Set up your project for success from the start.

Reduced Costs: Eliminate wasteful processes and unforeseen expenses.

Efficient Collaboration: Align teams, technology, and workflows.

Stronger Business Impact: Every project decision ties back to your business objectives.

Confidence & Control: Gain clear processes, proactive risk management, and seamless team support.

Who is Project S.T.A.R.T. For?

Project *S.T.A.R.T.* is tailored for businesses that need to hit the ground running. It's perfect for:

- **Businesses with upcoming projects:** Especially those launching within the next three months.
- **Revit users:** Teams adopting or struggling with Revit workflows.
- **Companies needing fast mobilization:** For projects requiring quick but structured kickoffs.
- **Firms seeking risk reduction:** Those aiming to prevent costly errors and misaligned processes.

Our Approach:
From Strategy to Execution

We don't just provide a service — we embed ourselves in your project's DNA for three months. Our approach includes:

1. Initial Consultation

Understanding your project goals, team structure, and technology stack.

2. Kickoff Workshop

Aligning roles, setting standards, and establishing workflows.

3. Technology Setup

Configuring software, templates, and digital workflows.

4. Model Coordination

Ensuring geospatial accuracy and conflict resolution.

5. Risk Analysis

Identifying potential risks and crafting mitigation plans.

6. Training Sessions

Equipping your team with essential knowledge and tools.

7. Ongoing Support

Providing technical help and business advice for three months.

8. Final Review

Wrapping up with a clear handover and future recommendations.

LET'S GET STARTED!

Your project deserves a strong foundation, and Project S.T.A.R.T. guarantees just that. It's not just about managing technology — it's about securing your business's success through streamlined, risk-managed project execution.
